

## INTERNATIONAL INTERNSHIP PROGRAM

### Testimony

Adrijana SEHOVAC, **Italy**

Politecnico di Milano

**IIP mission:** Paris, FRANCE

Business Analyst

Air Liquide Shared European Services

#### Does your AL experience differ from other internships you have had?

Yes, it differs by the exposure to international issues and the exceptional treatment of interns at Air Liquide.

#### What did you appreciate in your internship?

Doing very interesting work (even for a short time), great availability of my supervisors and above all of the organizers. Meeting important members of the Group and of course having a great time with other interns of different cultures and also with the organizers of the internship.

#### Did you feel the language barrier?

Not at all, I spoke French and English, and the staff of the Group was quite patient in making me understand everything about my work.

#### Was it difficult for you to spend two months away from your family?

Oh no! We are grown up, in a sense it's a good occasion to get used to it! It was a great pleasure and experience that I would suggest to anyone.

#### After this two months spent at AL would you like to be employed by AL?

With great pleasure.

#### What advice can you give to future interns?

Try it absolutely, because learning a lot and enjoying work while having fun with people of different cultures is a great life experience. Don't miss this chance!!
